## Sharing Internet Connectivity and Printing Resource on a Protected Home Network

Is there an Internet sharing device more complete than this by any chance? ZyXEL's P-335 Firewall Router delivers everything you need in one mighty unit. The seamless integration of router, USB print server, switch, firewall and TMSS features lets you enjoy doubled security, as well as bandwidth and printer sharing in a snap!

### Benefits

#### The True 5-in-1 Firewall Router

ZyXEL P-335 Firewall Router integrates everything you need to surf the Internet at home: router, switch, print server, firewall, and even the TMSS security gateway backed by Trend Micro, the maker of PC-Cillin antivirus software.

#### Sharing Internet Connectivity and Printing Resource

And a built-in USB print server allows you to share a printer on the network without leaving a host PC on. With four auto-sensing, switched LAN ports and Network Address Translation (NAT) routing, as many as Home LAN users can access one broadband connection at the same time.

#### Double Protect Your Home Network

This fully equipped, broadband-capable device is a true firewall with the utmost in business class security - Denial of Service (DoS) protection and Intrusion Detection using Stateful Packet Inspection (SPI), URL access and content filtering, logging, reporting, real-time alerts; in addition to VPN pass-through that maximizes network security.

The TMSS feature from Trend Micro, the leading software security solution provider, provides additional protection such as antivirus and parental control to protect and monitor computer usage as they access the Internet securely.
