University of Göttingen

*Stability and Sustainability in
Animal Production***14.45 Presentation of the Program*****Dr. Siawuch Amini***, Organizing
Committee**15.30 Break****16.00 Presentation and Formation of
Scientific Working Groups****Group 1: *Prof. Dr. Helge Böhnelt*****Resource Stability and Environmental
Stability****Group 2: *Dr. Uwe Muuß*****Sustainable Forest Management****Group 3: *Prof. Dr. Günter Mertins*****Socio-Economic Stability and Resource
Allocation****Group 4: *Prof. Dr. Dr. Winfried Manig*****Strategies and Visions for Resource Uti-
lization****Group 5: *Prof. Dr. Michael Kirk*****Local Structures vs. Globalization****19.00 WELCOME DINNER**

(please present your invitation)

Group 1: Resource Stability and Environmental Stability
Prof. Dr. Helge Böhnel / M.Sc. Alvaro Rivas Guzman

9.00

Jesús Martínez de la Cerda

Water Efficiency Practices in the
Metropolitan Area of Monterrey (61)

9.30

Dirk Masuch Oesterreich

Groundwater Resources Management
for the City of Monterrey, NE-Mexico:
The Buenos Aires Wellfield in the Hu-
asteca Canyon (24)

10.00

Victor Sandoval Vasquez

Methodische Untersuchungen zur
Raumbezogenen Modellierung und
Prognose von Landnutzungsverände-
rungen (10)

10.30 Break

11.00

**Maria de Fatima Bolaños
Ortega**

Leitlinien für die Planung einer land-
wirtschaftlichen Mechanisierungsstra-
tegie in Nicaragua (45)

11.30

Angel Leyva Galán

Die Artenvielfalt der karibischen Ag-
rarökosysteme. Überlegungen für ein
Morgen (14)

12.00

Alvaro Rivas-Guzman

The Quality of Soils, starting from Local In-
dicators of Soil Quality and Chemical, Physi-
cal and Biological Parameters, with the Par-
ticipation of Farmers of the Micro-
Catchment of the River Cabuyal, Cauca Co-
lumbia (56)

12.30 Lunch

13.30

Luis Alfonso Sandia Rondón

Health Risks Related to Agricultural Activi-
ties in Rural Counties of the Venezuela West
(30)

15.00 Break

15.30-18.00

Preparation of presentation

POSTERS GROUP 1

Delia González,

Cadmiumumweltbelastung in
Mexiko (57)

Group 2: Sustainable Forest Management
Dr. Uwe Muuß / M.Sc. Alberto Sediles

09.00

Javier Jiménez-Pérez

Population Structure indicators in an Uneven Aged Mixed Coniferous Stand in North Mexico (8)

09.45

Oscar Aguirre-Calderón

Growth and Increment of an Uneven-aged Mixed Coniferous Stand in the Higher Region of the Sierra Madre Oriental, Northeastern Mexico (21)

10.30 Break

11.00

José de Jesús Návar-Chaidez

Models for the Sustainable Management of Pine Plantations of Durango, Mexico (55)

11.45

Alberto José Sediles

Ataque de Escarabajos Descortezadores al bosque de pinos de Nicaragua 1999-2001 (62)

12.30 Lunch

13.30

Sergio Guzman

Visitors' willingness to pay in La Chua National Park Guatemala a contingent valuation study (40)

14.00

Jorge Ares

Remote Diagnosis of Early Desertification with Panchromatic, High-spatial Resolution Images. A Feasible Solution for Sustainable Use of Shrublands (4)

15.00 Break

15.30-18.00

Preparation of presentation

Group 3: Socio-Economic Stability and Resource Allocation
Prof. Dr. Günter Mertins / Dr. Olman Quiros Madrigal

9.00

José Luis Llanos Ascencio

Strategic Analysis of the Agricultural Exporter Sector in Latin America, respect of the political and Environmental Legislation of the European Union. Case Study: The Exporter Sector of Chilean Fresh Fruit (33)

Excursion

Departure 9.00
Ecological Park
Chipinque

Al sur de los municipios de San Pedro Garza García y Monterrey, es un paraje de la Sierra Madre Oriental.

Formando parte del Parque Nacional Cumbres Monterrey -el cual es el más grande en extensión en la República Mexicana-; está enclavado en la cadena montañosa de la Sierra Madre Oriental y su altitud va desde los 600 m.s.n.m. rematando hasta los 2,200 m.s.n.m., en la cima conocida como "Copete de las Águilas", las otras cimas son la "M" menor y la "M" central.

El Parque cuenta con una superficie de 1,625 hectáreas de topografía muy abrupta, presenta dos tipos de vegetación: el matorral submontano y bosque de encino pino con diferentes especies. En su fauna se han reportado alrededor de 120 especies de aves entre residentes y migratorias y 22 especies de mamíferos.

Localización:

12 kilómetros al sur de la Ciudad de Monterrey.

Información:

Tels. (81) 8303-0000 y (81) 8303-2190

Chipinque

es el escenario ideal para la caminata o el trote al aire libre, las cumbres de la sierra son uno de los mayores atractivos para los deportistas y los amantes de la naturaleza. Otros deportes que se pueden practicar son la bicicleta de montaña, el excursionismo, alpinismo, camping, rapel, montañismo, la observación de la flora y fauna y fotografía entre otros.
