Questionnaire

Dear Colleagues,  
Dear alumni,

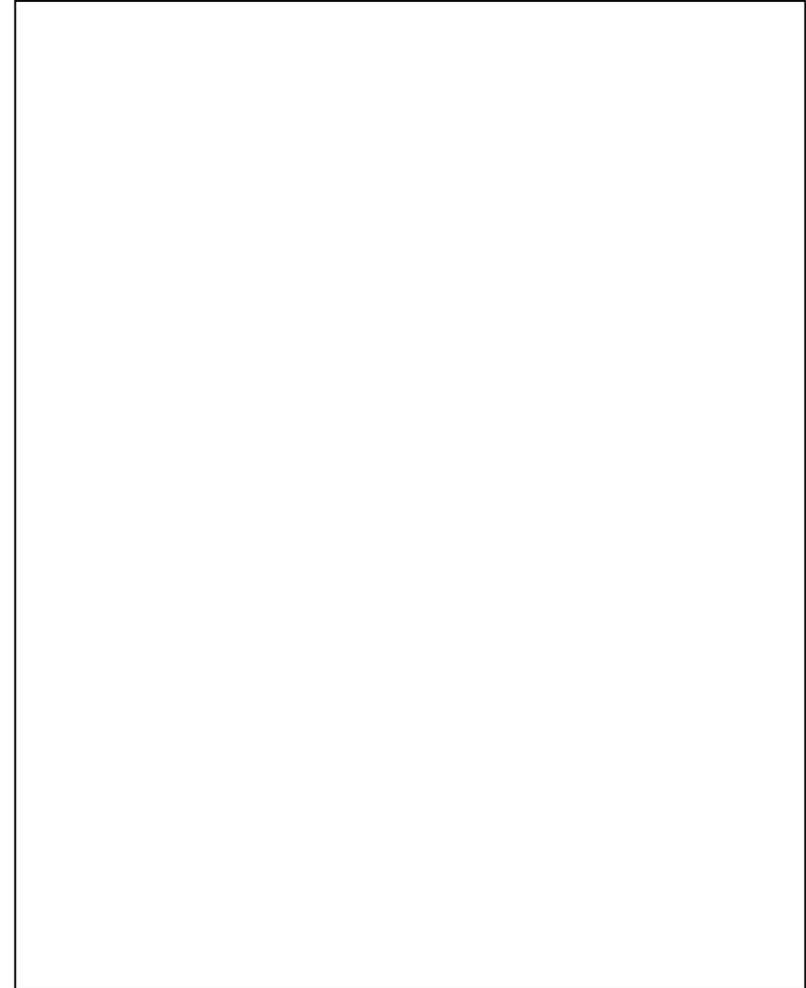

One of the most interesting features in our professional life is to understand deeply the kinds of works that we are doing. This is not possible without the combination of our activities with some kind of investigation. This helps to look for the pattern that is common to all of us as members of alumni. In the last year, we asked you to fill in a questionnaire to get basic ideas about the structure of the alumni. The results have been put on the website, so that you can easily read them. Now, we would like to go further and ask you to fill in kindly this questionnaire which focuses mainly on your employment and career planning in your professional life.

Please, take a little time and fill in this questionnaire carefully. Your information will help to organize the alumni-networking towards more efficiency and according to the all over needs of our community. As promised in earlier interviews, the data will be treated strictly confidential and your name will not be registered in connection with the data collected.

The results of this questionnaire will be put on internet as usual.  
Thank you very much.
