

# reCALL

## About RECALL:

**ReCALL (Red Científica Alemania Latinoamerica)** is an international Alumni-Network financially supported by the German Academic Exchange Service - **DAAD** and the German Federal Ministry for Economic Co-operation and Development - **BMZ**.

ReCALL is based on the close co-operation of the Universities of **Kassel-Witzenhausen**, **Göttingen** and **Marburg** and partner institutions in Latin America.

For further information please visit our website at [www.recall-alumni.de](http://www.recall-alumni.de).

ReCALL, the Red Científica Ale-  
mania Latinoamérica, is  
pleased to announce the 2nd  
International Symposium-cum-  
Workshop in Latin America 2002.

Date: **18 - 22 November, 2002**

Topic: **"Resource Utilization:  
Globalization and Local Structure"**

Venue: **Universidad Autónoma  
de Nuevo León, Monterrey, Mexico**

The topic of the Symposium-cum-Workshop is introduced as a general frame-work to achieve an interdisciplinary and problem oriented scientific approach and to make an intensive interaction between the participants as well as an integration and participation of different disciplines possible. The resource utilization is an issue relevant to all sciences and disciplines, especially in terms of sustainability. A co-evolutionary approach as well as critical aspects of globalization and local structures is envisaged to discuss the necessary changes for the well-being of the society in such a way that the adequate interventions in local structures increase and preserve the co-evolutionary potentials of nature.

The following specific thematic areas are envisaged:

- **Resource Stability (Water, Plants, Animal, Forest, Physical Environment etc.)**
- **Environmental Stability (specific and general externalities)**
- **Socio-Economic Stability and Resource Allocation**
- **Strategies and Visions for Resource Utilization**
- **Local Structures vs Globalization**

The specific scientific groups will be introduced after the review of the Abstracts by the deadline.

**Language of the Conference:** English and German

**Symposium Proceedings:** A high standard of contributions and presentations at the workshop is desired. Potential participants are, therefore, invited to submit good quality papers to the Organizing Committee Germany (address below) for consideration by the review panel. Initial screening will be based on the quality of submitted Abstracts. A committee of peers will review manuscripts and only high quality papers will be accepted for presentation at the workshop. All presentations will be oral. Accepted papers will be reviewed and edited by an editorial committee and published in Proceedings. Only participants with accepted papers will be sponsored to attend the conference.

**Alumni-Networking:** In addition to the Symposium Proceedings, another crucial focus is the Alumni-Networking. The Symposium Proceedings should help participants to establish and maintain a network at local and regional level, in order to achieve an intensive communication between all involved institutions and individuals beyond the scientific exchange of information.

## Call for Papers and Calendar:

Submit to the ReCALL Organizing Committee by the following strict deadlines:

### 15<sup>th</sup> August 2002

Receipt of Abstracts (250 - 300 words) containing the basic elements of the full paper (rationale, objectives, methods, results and conclusions).

### 31<sup>st</sup> August 2002

Notice of provisional acceptance of papers based on Abstracts sent to authors.

### 31<sup>st</sup> October 2002

Final manuscript due at Organizing Committee.

**Send Abstract to:**

**<http://submission.recall-alumni.de>**

**Guidelines to Authors** will be distributed together with the Notice of Acceptance of Abstracts.

**Guidelines for preparation of oral and poster presentations** will be provided with final full paper acceptance.

**Sponsorship:** Funding available to sponsor participants from the region is very limited. Support provided through **DAAD** to attend will depend entirely on the acceptance of the full paper by the Organizing Committee. Independently sponsored participants are equally welcome but their inclusion on the program will also depend on acceptance of their full papers by the Organizing Committee.
